

WAVERLY GASOLINE

is now "STANDARD"

FOR slightly more than a year we have been selling "Standard" products in Western Pennsylvania. From the first, the response of the public has been tremendous. Sales of "Standard" Gasoline and ESSO, the Giant Power Fuel, have steadily increased, day by day and month by month, until today they are the most talked of motor fuels in this section. So fast, in fact, has the popularity of these widely known fuels and of "Standard" Service grown, that our retail facilities have, for the past few months, been overcrowded.

In fairness to our present customers and to our host of friends who want "Standard" products, we have recently increased our service facilities. We have secured the Waverly group of service stations, conven-

iently located and adequately equipped to render the type of service to be found at "Standard" stations everywhere. These, together with over 200 dealers formerly selling Waverly products, have changed over to "Standard" Gasoline and ESSO, giving us outlets of a high type in many neighborhoods where we have not been represented.

Wherever you see the "Standard" and ESSO pump globes, whether on former Waverly pumps or on those of older "Standard" Dealers or Service Stations, you will get the same high quality "Standard" Gasoline, and ESSO, the Giant Power Fuel, that are winning new friends each week, by the thousands, through sheer performance on the hills of Western Pennsylvania.
